What are the requirements for the videos?

The better the quality, the better the outcome, that is a simple equation.

SWISSTRAFFIC.ai processes videos from both **drones** and **standard** or **panoramic** cameras. However, both types have slightly **different recording quality requirements**. Therefore, we have prepared **detailed instructions** to make sure your video provides the best suitable results for your traffic survey.

Guides for:

- **Drones**
- **Fixed or panoramic cameras**

SWISSTRAFFIC.ai

How to capture a perfect **drone** video for **traffic survey**?
